

RECYCLING BREAKTHROUGH

OPTIONAL VOLUMETRIC
AND GRAVIMETRIC

SEALED SYSTEM =
NO CONTAMINATION

MULTI COMPATIBLE
SAP - 4 X CHANNELS

QUICK-ACCESS
AUGER CHAMBER

OPTIONAL FACTORY -
WIDE MANAGEMENT

DYNAMIC PORT
COMMUNICATION BUS

DELAY UP/DOWN
RAMP TECHNOLOGY

OPTIONAL MAGNETIC
CAPTURE - 4 STAGE

SAP INTEGRATED
OPTIONAL RECEIVER

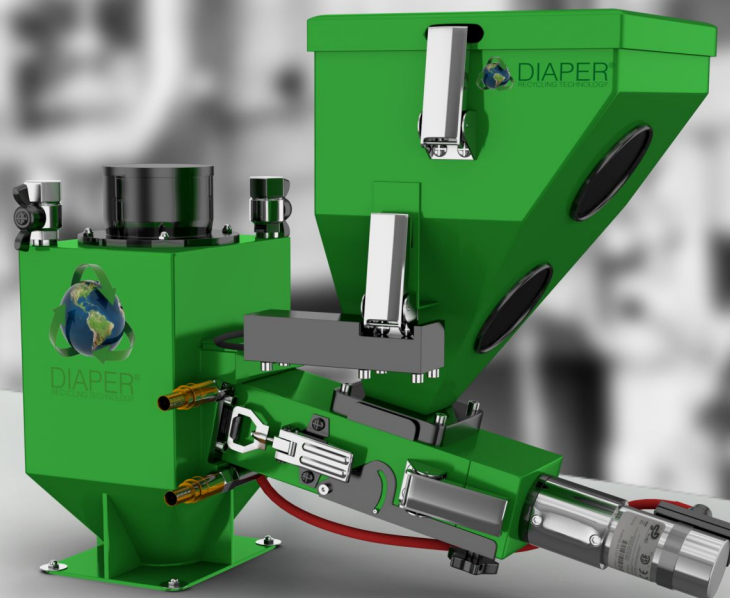

4D & 5D SAP CORE
COMPATIBLE

1,2,3,4 FLIGHT AUGER
SCREW OPTIONS

STANDARD OEM
INTERFACE KITS

DESIGNED FOR

ADULT - BABY - FEM

SAP RE-FEED

MAXIMISING YOUR \$\$\$ REVENUE STREAMS WHILST PROTECTING THE ENVIRONMENT

Industry-first SAP drip-feed technology is an **all-in-one** cost effective equipment solution specifically designed to accurately drip feed recycled SAP back to your production convertors. Send you SAP back to source convertor or to any combination of convertors, the choice is yours. The compact equipment size allows installation in any production system allowing re-feed options ranging from 0.05 up to 30%.

Our newly developed technology assists our partners to achieve their environmental targets, reduces CO2 emissions & boosts profit margins. Put simply, its another **WIN** for the **environment** & our **partners**.

DIAPER®

RECYCLING TECHNOLOGY

Next generation air-less diaper recycling technology supporting the next generation of convertors around the globe.
